Orcutt, CA, September 17, 2009 – **Insight Management Files 10-Q, Operating Subsidiary Continues to Post Quarterly Profit**

Insight Management Corporation (OTC BB: ISIME) (OTC BB: ISIM) today announced that it filed its quarterly report for the period ended June 30, 2009. The Company has now met its quarterly public filing requirement and its symbol will revert back to ISIM within 72 hours. President and CEO, Jennifer Rapacki commented, "After working through the challenges of having ended the second quarter with both a merger and the acquisition of Rebel Testing, Inc (RTI), we can now turn our focus to our near-term growth strategies to explore expansion of RTI services and acquisitions of other oil and gas companies."

RTI continues to post quarterly profits. Revenues from its Wyoming operations are up approximately 15% from the same 6 month time period a year ago. Given higher leasing activity, strong margins, new ownership, and increased capital resources, the company is in a good position to add significantly to the bottom line during the remainder of 2009.

About Insight Management Corporation

Insight Management Corporation (ISIM) is a public holding company whose core business is focused in the oil and gas industry. The company has a strategic plan for growth through acquisition and functions from the perspective of an engineering firm. This is the nucleolus that directs what acquisitions are made and creates strategic alliances, develops proprietary technology and patents that bring the expertise and ultimately creates the real value for Insight Management. The Company expects to retain the strong management teams in each business unit, capitalizing on their local knowledge of competitors and operating climate, along with their loyal customer relationships.

About Rebel Testing, Inc.

Rebel Testing, Inc. (RTI), of Gillette, Wyoming, has been in business for over eighteen years and is a leading Rocky Mountain regional oil and gas field services provider. The company maintains a fleet of pump hoist trucks servicing the greater Powder River Basin. RTI also has operations based in Colorado focused on servicing & pressure testing blow out preventers and provides these services in the greater Colorado, Wyoming and Utah areas. Customers include, among others, two Fortune 500 oil and gas corporations.
